CLAIM NO. 7002 2030 0006 2095 3009

Dear Mr. Bobklewicz:

TENTATIVE WASTE DISCHARGE REQUIREMENTS AND MONITORING AND REPORTING REQUIREMENTS FOR CITY OF SANTA PAULA (NEW SANTA PAULA WASTEWATER RECLAMATION FACILITY), 905 CORPORATION STREET, SANTA PAULA, CALIFORNIA (FILE NO. 06-189, CI-XXXX)

City of Santa Paula has submitted a Report of Waste Discharge for new waste discharge requirements for disposal of wastewater from a new wastewater reclamation facility scheduled to begin operation by September 15, 2009. We have completed our review of the application for waste discharge requirements for the new Santa Paula Wastewater Reclamation Facility (SPWRF). Pursuant to the California Water Code, tentative waste discharge requirements (WDRs) and a monitoring and reporting program (MRP) have been prepared.

Enclosed are copies of the following:

1. Tentative WDRs consisting of:
 - a. Board Order R4-2006-XXXX specifying WDRs;
 - b. Standard Provisions Applicable to Waste Discharge Requirements; and
 - c. Monitoring and Reporting Program (CI-XXXX)

In accordance with administrative procedures, this Board will conduct a public hearing on November 9, 2006, to be held at 9:00 a.m., at the Metropolitan Water District of Southern California, Board Room, 700 N. Alameda Street, Los Angeles, California 90013, to consider the enclosed tentative WDRs and MRP. The Board will hear any testimony pertinent to this discharge, the tentative requirements, monitoring and reporting program. It is expected that the Board will take action at the hearing; however, as testimony indicates, the Board, at its discretion, may order further investigation.

Written comments or testimony regarding these tentative WDRs must be received at the Board's Office by the close of business on October 23, 2006 in order to be evaluated by Board staff and included in the Board's agenda folder. Comments received after this date will be provided, ex agenda, to Board Members for their consideration. Failure to comply with these requirements is grounds for the Board to refuse to admit the proposed written comment or exhibit into evidence. Timely submittal of written comments is encouraged to ensure that all comments are accurately and fully included in the administrative record, that Board staff is able to provide timely review, and that Board Members have sufficient time to give full consideration to the comments and issues.
